The Ark Church, Isleham Data Protection Policy

What is data protection legislation?

Data Protection Legislation means the Data Protection Act 2018, the Privacy and Electronic Communications Regulations (EC Directive) Regulations 2003 (SI 2426/2003 as amended), the General Data Protection Regulation (GDPR), any laws in the UK enacting the GDPR or preserving its effect in whole or part following the departure of the UK from the European Union and all applicable laws and regulations, including any replacement UK data protection legislation relating to the Processing of Personal Data.

Data Protection Legislation is concerned with the protection of human rights in relation to personal data. The aim of the Legislation is to ensure that personal data is used fairly and lawfully and that where necessary the privacy of individuals is respected. During the course of the activities of The Ark, Isleham ("the Church"), the Church will collect, store and process personal data about our members, people who attend our services and activities, employees, suppliers and other third parties and we recognise that the correct and lawful treatment of this data will help maintain confidence in the Church. This policy sets out the basis on which we will process any personal data we collect from data subjects, or that is provided to us by data subjects or other sources.

The Data Protection Compliance Manager is responsible for ensuring compliance with the Legislation and with this policy. The post is held by Andrew Samalionis contact@thearkisleham.co.uk

Any questions about the operation of this policy or any concerns that the policy has not been followed should be referred in the first instance to the Data Protection Compliance Manager.

Processing personal data

All personal data should be processed in accordance with the Legislation and this policy. Any breach of this policy may result in disciplinary action.

Processing includes obtaining, holding, maintaining, storing, erasing, blocking and destroying data.

Personal data is data relating to an identifiable, living individual. It includes employee data. It will not include data relating to a company or organisation, although any data relating to individuals within companies or organisations may be covered. Personal data can be factual (for example a name, address or date of birth) or it can be an opinion about that person, their actions and behaviour.

Examples of personal data are employee details, including employment records, names and addresses and other information relating to individuals, including supplier details, any third-party data and any recorded information including any recorded telephone conversations, emails or CCTV images.

Employees and others (including volunteers and trustees) who process data on behalf of the Church (referred to in this policy as 'employees') should assume that whatever they do with personal data will be considered to constitute processing.

Employees should only process data:

- If they have consent to do so; or
- If it is necessary to fulfil a contractual obligation or as part of the employer/employee relationship; for example, processing the payroll; or
- the processing is necessary for legitimate interests pursued by The Ark, Isleham, unless these are overridden by the interests, rights and freedoms of the data subject.

If none of these conditions are satisfied, individuals should contact the Data Protection Compliance Manager before processing personal data.

Compliance with the Legislation

Employees who process data on our behalf have a responsibility for processing personal data in accordance with the Legislation. This includes the data protection principles in the Legislation. These state that personal data must:

- be obtained and used fairly, lawfully and transparently
- be obtained for specified, explicit and legitimate purposes and used only for those purposes
- be adequate, relevant and limited to the minimum necessary for those purposes
- be accurate and kept up to date (every reasonable endeavour should be used to ensure that personal data that is not accurate is corrected or erased without delay)
- be processed in a manner that ensures its security (see Information Security policy at Appendix 1).
- not be kept for any longer than required for those purposes (see Retention policy at Appendix 2).

We will only share personal data with other organisations or people when we have a legal basis to do so and if we have informed the data subject about the possibility of the data being shared (in a privacy notice) unless there is a legal exemption from doing so. We will keep records of any information shared with a third party including a record of any exemption which has been applied.

Employees should follow the Data Breach Procedure (at Appendix 3) if they think they have accidentally breached any provision of this Data Protection Policy.

Special Category Data

We will strive to ensure that special category data is accurately identified on collection so that proper safeguards can be put in place. Special category data means data consisting of information relating to an individual's:

- Racial or ethnic origin
- Political opinions
- Religious or philosophical beliefs
- Trade union membership
- Physical or mental health, biometric and genetic information
- Sex life or sexual orientation

Although not technically special category data, we treat data relating to criminal offences similarly.

Special category data may be processed in the course of our legitimate activities, but may not be passed to any third party without the express consent of the data subject.

Monitoring the use of personal data

We are committed to ensuring that this data protection policy is put into practice and that appropriate working practices are being followed. To this end the following steps will be taken:

- Any employees who deal with personal data are expected to be aware of data protection issues and to work towards continuous improvement of the proper processing of personal data;
- Employees who handle personal data on a regular basis or who process special category or other confidential personal data will be more closely monitored;
- All employees must consider whether the personal data they hold is being processed in accordance with this policy. Particular regard should be had to ensure inaccurate, excessive or out of date data is disposed of in accordance with this policy;
- Employees must follow the Breaches Procedure (at Appendix 3) should they become aware of any breach of this policy;
- Employees will keep clear records of our processing activities and of the decisions we make concerning personal data (including reasons for the decisions) to show how we comply with the Legislation;
- Spot checks may be carried out;
- An annual report on the level of compliance with or variance from good data protection practices will be produced by the Data Protection Compliance Manager.

- Data breaches will be recorded and investigated to see what improvements can be made to prevent recurrences;
- We will only appoint data processors on the basis of a written contract
 that will require the processor to comply with all relevant legal
 requirements. We will continue to monitor the data processing, and
 compliance with the contract, throughout the duration of the
 contract.

Handling personal data and data security

This will be managed in accordance with our Information Security Policy (see Appendix 1).

The rights of individuals

The Legislation gives individuals certain rights to know what data is held about them and what it is used for. If personal data is collected directly from an individual, we will inform them in writing of their rights by providing them with a 'Privacy Notice' at the time the personal data is collected or as soon as possible afterwards.

In principle everyone has the right to see copies of all personal data held about them. There is also a right to have any inaccuracies in data corrected or erased. Data subjects may also have a right of portability in respect of their personal data, and a right to be forgotten. Data subjects also have the right to prevent the processing of their data for direct marketing purposes.

Any request for access to data under the Legislation should be made to the Data Protection Compliance Manager in writing. In accordance with the Legislation we will ensure that written requests for access to personal data are complied with within one calendar month of receipt of a valid request (where permitted under the Legislation, we may take a further two calendar months to respond but we will inform the individual of why this is necessary).

When a written data subject access request is received the data subject will be given a description of a) the personal data, b) the purposes for which it is being processed, c) those people and organisations to whom the data may be disclosed, d) be provided with a copy of the information in an intelligible form.

Changes to this policy

We reserve the right to change this policy at any time, including as needed to comply with changes in law. Where appropriate we will notify data subjects of those changes by mail or email.

Policy adopted on 01.09.2025 (Date of Church Council meeting) To be reviewed in 2 years

Schedule – ICO Registration [FOR CHURCH'S OWN RECORDS AND NOT FOR PUBLIC DISPLAY]

Data Controller: The Ark, Isleham

Registration Number: Z7842812

Date Registered: 23.05.2003

Registration Expires: (renewed annually)

Address: The Ark Church,

101, Beck Road, Isleham, Ely, Cambs CB7 5QP

APPENDIX 1 – Information Security Policy

APPENDIX 2 – Records Retention Policy

APPENDIX 3 – Data Breach Policy

APPENDIX 4 – Complaints process

The Ark Church, Isleham

APPENDIX 1 - Information security policy

Information security involves preserving confidentiality, preventing unauthorised access and disclosure, maintaining the integrity of information, safeguarding accuracy and ensuring access to information when required by authorised users.

In addition to complying with this policy, all users must comply with the Data Protection Legislation and the Data Protection Policy.

'Church data' means any personal data processed by or on behalf of The Ark church.

Information security is the responsibility of every member of staff, trustee, office holder, church member and volunteer using Church data on but not limited to the Church information systems. This policy is currently the responsibility of Andrew Samalionis, the Data Protection Compliance Manager who will undertake supervision of the policy.

Our IT systems may only be used for authorised purposes. We will monitor the use of our systems from time to time. Any person using the IT systems for unauthorised purposes may be subject to disciplinary and/or legal proceedings.

We will take appropriate technical and organisational steps to guard against unauthorised or unlawful processing. In particular:

All data will be stored in a secure location and precautions will be taken to avoid data being accidentally disclosed.

Manual records relating to church members or staff will be kept secure in locked cabinets. Access to such records will be restricted.

Access to systems on which information is stored must be password protected with strong passwords and these should be changed at once if there is a risk they have been compromised. Passwords must not be disclosed to others. We will ensure that staff and members who handle personal data are adequately trained and monitored to ensure data is being kept secure. We will ensure that only those who need access will have access to data. We will take particular care of special category data and security measures will reflect the importance of keeping special category data secure (definition of special category data is set out above in the Data Protection Policy), e.g. password protection for documents and encryption. Where personal data needs to be deleted or destroyed adequate measures will be taken to ensure data is properly and securely disposed of. This will include destruction of files and back up files and physical destruction of

will be taken to ensure data is properly and securely disposed of. This will include destruction of files and back up files and physical destruction of manual files. Particular care should be taken over the destruction of manual special category data (written records) including shredding or disposing via specialist contractors (who will be treated as data processors -see below). We will ensure that any data processor engaged to process data on our behalf (e.g. for payroll) will act under a written contract and will give appropriate undertakings as to the security of data.

Appropriate software security measures will be implemented and kept up to date.

We will ensure that if information has to be transported or transferred, this is done safely using encrypted devices or services.

Where personal devices are used to store or process personal data, they must be subject to appropriate security.

All breaches of this policy must be reported to Andrew Samalionis, the Data Protection Compliance Manager. This policy will be regularly reviewed and updated to ensure ongoing compliance and relevance.

The Ark Church

Appendix 2 - Records Retention Policy Storage of Data and Records Statement

All data and records will be stored in accordance with the security requirements of the Data Protection Legislation and in the most convenient and appropriate location having regard to the period of retention required and the frequency with which access will be made to the record.

Data and records which are no longer active, due to their age or subject, should be stored in the most appropriate place for their purpose or destroyed.

Any data file or record which contains personal data of any form can be considered as confidential in nature.

Data and records should not be kept for longer than is necessary. This principle finds statutory form in the Data Protection Legislation, which requires that personal data processed for any purpose "shall not be kept for longer than is necessary for that purpose". All staff, trustees, volunteers and members of the Church are required to have regard to the Guidelines for Retention of Personal Data.

Any data must be safely disposed of, for example by shredding. Any group which does not have access to a shredder should pass material to Andrew Samalionis who will undertake secure shredding.

Special care must be given to disposing of data stored in electronic media. Guidance will be given by Andrew Samalionis to any group which has stored personal data relating to its members on personal or church computers.

The appropriate times for the Ark church to retain data of members varies based on the type of data, legal requirements, and the church's needs.

Retention Times

Contact Information e.g. addresses, phone numbers, emails

Active Members or regular attenders Retain as long as the person is an active member of the church or attends regularly.

Inactive Members Retain for 3 years after they become inactive, in case they return or need to be contacted for follow-up.

Financial Records e.g. donations, tithes

Retain for 7-10 years to ensure compliance with legal and financial auditing requirements.

Membership Records e.g. membership forms, baptismal records Retain for as long as the person is in active membership

Volunteer and Service Records

Active Volunteers: Retain as long as the person is actively volunteering.

Inactive Volunteers Retain for 1 year after they stop volunteering, to maintain records of past service and for potential future reference.

Pastoral Care Records e.g.counselling notes, home visits

Retain as long as the person is in active membership. Ensure these are kept confidential and retained only as long as necessary for the care of the individual.

Legal Records e.g. disciplinary actions, incident reports Retain for 10 years (unless there is a Safequarding element)

Safeguarding Incident reports: Retain for 75 years in a secure location. Records relating to a Safeguarding matter that are deemed to require no further action should be retained for 2 years.

Complaints: (Not Safeguarding issues) Retain for 7 years

Electronic Data and Communications

General Communications Retain for a short period, typically 1-2 years, unless they contain important information.

Official Correspondence Retain for 3-5 years or longer, depending on the content and importance.

This is not an exhaustive list. If you have any queries regarding retaining or disposing of data please contact Andrew Samalionis.

Appendix 3 The Ark Church Data Breach Policy

Introduction

The Ark Church ("we") hold and process personal data which needs to be protected. Every care is taken to protect the data we hold. Compromise of information, confidentiality, integrity or availability may result in harm to individuals, reputational damage, detrimental effect on service provision, legislative non-compliance and financial penalties.

Purpose

This policy sets out the procedure to be followed to ensure a consistent and effective approach throughout the Church.

Scope

The policy relates to all personal data held by The Ark Church, regardless of format. It applies to anyone who handles this personal data, including those working on behalf of the Church. The objective of the policy is to contain any breaches, to minimise the risks associated with the breach and to consider what action is necessary to secure personal data and prevent any further breach.

Types of breach

An incident is an event or action which may compromise the confidentiality, integrity or availability of systems or data, either accidentally or deliberately, and has caused or has the potential to cause damage to data subjects.

An incident includes but is not restricted to:

- Loss or theft of personal data or the equipment on which the data is stored e.g. laptop, memory stick, smartphone, or paper record
- theft or failure of equipment on which personal data is stored
- Unauthorised use of or access to personal data
- Attempts to gain unauthorised access to personal data
- Unauthorised disclosure of personal data
- Website defacement
- Hacking attack

Reporting an incident

Any person using personal data on behalf of The Ark Church is responsible for reporting data breach incidents immediately to Andrew Samalionis or in his absence the Chair of Church Council. The report should contain the following details:

- Date and time of discovery of breach
- Details of person who discovered the breach
- The nature of the personal data involved
- How many individuals' data is affected

Containment and recovery

Andrew Samalionis will first ascertain if the breach is still occurring. If so, appropriate steps will be taken immediately to minimise the effects of the breach. An assessment will be carried out to establish the severity of the breach and the nature of further investigation required. Consideration will be given as to whether the police should be informed. Advice from appropriate experts will be sought if necessary. A suitable course of action will be taken to ensure a resolution to the breach.

Investigation and risk assessment

An investigation will be carried out without delay and where possible within 24 hours of the breach being discovered. Andrew Samalionis will assess the risks associated with the breach, the potential consequences for the data subjects, how serious and substantial those are and how likely they are to occur. The investigation will take into account the following:

- The type of data involved and its sensitivity
- The protections in place e.g. encryption
- What has happened to the data
- Whether the data could be put to illegal or inappropriate use

- Who the data subjects are, how many are involved, and the potential effects on them
- Any wider consequences

Notification

Andrew Samalionis will decide with appropriate advice who needs to be notified of the breach. Every incident will be assessed on a case by case basis. The Information Commissioner will be notified, if at all possible within 24 hours of the data breach, if a large number of people are affected or the consequences for the data subjects are very serious. Guidance on when and how to notify the ICO is available on their website https://ico.org.uk/for-organisations/guide-to-the-general-data-protection-regulation-gdpr/personal-data-breaches/

Where appropriate, we will notify the data subjects whose personal data has been affected by the incident; such a notification may include a description of how and when the breach occurred, and the nature of the data involved, and specific and clear advice on what they can do to protect themselves and what has already been done to mitigate the risks.

Andrew Samalionis will keep a record of all actions taken in respect of the breach.

Evaluation and response

Once the incident is contained, Andrew Samalionis will carry out a review of the causes of the breach, the effectiveness of the response, and whether any changes to systems, policies or procedures should be undertaken. Consideration will be given to whether any corrective action is necessary to minimise the risk of similar incidents occurring.

The Ark Church

Appendix 4- Data Protection Complaints Process

The Ark Church ("we") take your privacy concerns seriously. If you have any concerns about the way your information is being handled, please contact Andrew Samalionis without delay. He can be contacted as follows:

Phone: 01638 780985

Email: contact@thearkisleham.co.uk

We will carefully investigate and review all complaints and take appropriate action in accordance with Data Protection Legislation. We will keep you informed of the progress of our investigation and the outcome. If you are not satisfied with the outcome, you may wish to contact the Information Commissioner's Office at https://ico.org.uk/concerns/

Any complaint received by us must be referred to Andrew Samalionis who will arrange for an investigation as follows:

A record will be made of the details of the complaint.

Consideration will be given as to whether the circumstances amount to a breach of Data Protection Legislation and action taken in accordance with the Data Breach Procedure.

The complainant will be kept informed of the progress of the complaint and of the outcome of the investigation.

At the conclusion of the investigation the Data Protection Compliance Manager, Andrew Samalionis will reflect on the circumstances and recommend any improvements to systems or procedures.
